

ZENESIS™

FINGER BITS CNC PRECISION

The **ALL-NEW ZENESIS™ 4 and 7 segment finger bits** provide top CNC performance on all stone materials. They deliver **precise, quiet, chip-free** cutting at **faster speeds** and can be used on soft to medium-hard materials (4 segments) or medium to hard materials (7 segments). The enhanced design utilizes our most advanced diamond pattern to date, which increases durability and prevents premature wear so that the finger bits will last you even longer.
