ZENESIS™

3 STEP POLISHING PADS

4" Diameter

ZENESIS™ 3-Step Polishing Pads will save you time and make you money. Our pads give a spot on factory finish in half the time as traditional 7-step pads. Here is how it works: **#1 pad** sands the stone and takes out saw marks and light pitting; does the work of 50 to 200 grit. **#2 pad** hones the material taking out any swirl marks preparing the stone for polishing; does the work of 200 to 800 grit. **#3 pad** puts on an amazing high gloss polish; does the work of 800 to 3000 grit.

- Unique Hybrid resin works great wet or dry.
- Super high diamond concentration allows 1 pad to do the work of 3.
- Special white resin will not stain your material.
- Optional hyper aggressive **position 0** can extend the life of #1 and #2.
