## ZENESIS™ QUARTZITE *Turbo*

The new ZENESIS™ Quartzite Turbo blade is the first small-diameter blade we engineered specifically for the hardest quartzites. Where other turbo blades bounce, chip, or stop cutting after a few inches, this blade cuts easily through these materials. Unique turbo rim design with added drop segments makes this blade immediately stand out from the competition.

- Available with quad adaptor holes in sizes 5" to 7"
- Cuts Quartzite, All Natural Stone, Granite, Engineered Stone
