

# ZENESIS™

## ZENESIS™ 3-STEP POLISHING PADS

ZENESIS™ 3-Step Polishing Pads will save you time and make you money. Our pads give a spot on factory finish in half the time as traditional 7-step pads. The #1 pad sands the stone and takes out saw marks. The #2 pad hones the material, preparing it for polishing. The #3 pad puts on an amazing high gloss polish.

- ZENESIS™ 3-Step Polishing Pads now feature flexibility!
- Special white resin will not stain your material
- Super high diamond concentration allows 1 pad to do the work of 3
- Optional hyper aggressive position 0 can extend the life of #1 and #2
- Polishes Engineered Stone, Quartzite, and All Natural Stone
